

Specialist Electrical and Safety Training Courses from Connaught

City & Guilds 2377-002 Certificate of Competence for the Inspection and Testing of Electrical Equipment

A two day course focusing on the requirements of the formal inspection, testing and recording of electrical equipment (Portable Appliance Testing) on preparation for the City & Guilds 2377-002 examination. This course also now includes the practical tutorial day as standard, the course is aimed at personnel that will perform inspection and testing, operating modern portable appliance test equipment in line with the requirements of the IEE Code of Practice.

£260.00 + VAT

City & Guilds 2382-10 Certificate in the Requirements for Electrical Installations - BS7671:2008 IET 17th Edition Wiring Regulations (Full Course)

A four day course providing a comprehensive overview of all aspects of the wiring regulations, the course aimed at Electricians, Electrical Contractors, Domestic Installers as well as others who require a working knowledge of the wiring regulations. This qualification is aimed at those who have not previously completed a wiring regulations training course or gained the qualification prior to 2001.

£495.00 + VAT

City & Guilds 2382-20 Certificate in the Requirements for Electrical Installations - BS7671:2008 IET 17th Edition Wiring Regulations (Update Course)

This two day course is intended for those who have gained a full formal City & Guilds qualification relevant to BS7671 since the 2001 edition was issued. The course will address the specific changes in the requirements of BS7671 and is aimed at Electricians, Electrical Contractors, Domestic Installers as well as others who have a working knowledge of the wiring regulations (City & Guilds 2381 16th Edition candidate numbers will be required).

£295.00 + VAT

City & Guilds 2391-10 Inspection, Testing and Certification of Electrical Installations to BS7671:2008

A four day course incorporating a practical tutorial which includes a detailed introduction to the testing of electrical installations in accordance with BS7671 and practical demonstrations in preparation for both the practical assessment and written examination. The course is aimed at personnel who are involved in the Inspection and Testing of Electrical Installations to BS7671:2008 and require certification possibly for NICEIC purposes or to demonstrate competence as a 'Duty Holder' with responsibility for the safety of electrical installations within their organisation.

£575.00 + VAT

City & Guilds 2392-10 Fundamental Inspection, Testing and Initial Verification

A five day course including a practical session, this course is aimed at personnel with limited experience of inspection and testing of electrical installations. It would prepare candidates who wish to go on to achieve the City & Guilds Level 3 Certificate 2391-10. It is also suitable for those personnel involved in inspection and testing of their own work, such as those personnel carrying out work in domestic installations and on new construction sites.

£575.00 + VAT

City & Guilds 2391-20 Design, Erection and Verification of Electrical Installations

Previously known as the City & Guilds 2400, this course can be delivered over a variety of formats; block sessions, evenings or day release.

£550.00 + VAT
